

For Immediate Release

**VALLO TRANSPORTATION FORMS VP BUSES
A NEW SISTER-COMPANY WITH A FAMILY LEGACY YOU CAN TRUST**

VP Buses Acquired SuperTrans N.Y. Inc.

**Offers Private Yellow School Bus Transportation
at Additional Bronx Schools**

Whitestone, New York – August 17, 2015 – A family owned and managed business with over 50 years of experience in school bus transportation has opened a new corporation and sister company to Whitestone-based *Vallo Transportation Ltd* named **VP Buses**. At the helm of this operation are third-generation family members Denise DeSabato-Pisapia, Chief Operating Officer and Nick Vallone, Managerial Assistant. *VP Buses* will continue the family legacy of providing private yellow school bus service to New York schools and has been contracted to start providing bus service to students at a school in Riverdale in September. Subsequently, **VP Buses** recently acquired **Supertrans N.Y. Inc.** which provides private school bus transportation for students attending Horace Mann and Riverdale County Schools in the Bronx.

Both Denise DeSabato-Pisapia and Nick Vallone are grandchildren to an industry pioneer, Ed Vallone. Ed and his brother Tony founded *Parkway Bus Service* over 50 years ago, and their focus was to provide affordable, quality, safe and reliable private school bus service to New York City students. Through successful partnerships, their business continued, and currently Ed Vallone's children and grandchildren uphold his high standards and continue to own and operate several transportation companies throughout New York including *Vallo Transportation Ltd*, *Rolling V Transportation Services*, *Mutual Bus Corporation*, *Shuttle Bus Plus* and their latest venture **VP Buses**. Each company continues to be family owned and managed and has a solid reputation built on safety and treating customers with respect and thoughtfulness as if, they too, are part of the family.

Expanding to Riverdale is familiar territory for *VP Buses* as Denise played a pivotal role in securing a successful partnership between *Vallo Transportation* and a school there in the past. "We're confident that *VP Buses* will uphold our family's strong tradition of safety, reliability and superior customer care that each school community has come to expect from us. We want parents to know that our clients – their children – will receive our utmost attention to detail which will result in prompt, professional and personalized service," stated **Denise DeSabato-Pisapia, Chief Operating Officer, VP Buses**. Denise firmly believes that honest, effective and meaningful communication will lead to a mutually beneficial relationship with clients, employees and the community. Denise has held leadership positions in the family's transportation business for almost a decade, and previously held leadership positions in the hospitality field. She received her Master's Degree in Healthcare Administration from Hofstra University, and continues to implement new practices and policies that strengthen operations and maximize communication platforms.

"It's not only our objective to serve the school community to the best of our ability, our hope is to further expand our community service throughout the Bronx and form lasting, effective partnerships that make a positive impact. Our family strongly believes in giving back, and our employees share our philanthropic spirit as well," added Ms. DeSabato-Pisapia.

-more-

Vallo Transportation is a successful local business and expansion is a natural progression on their journey toward continued success. Recently, **VP Buses** acquired **SuperTrans N.Y. Inc.** which offers private school bus service to Horace Mann and Riverdale County Schools in the Bronx. Understanding the importance of continuing to grow the company, Nick was instrumental in another recent acquisition, *Shuttle Bus Plus*, a New York City-based transportation company catering to luxury residential and commercial establishments. **Nick Vallone, Managerial Assistant, VP Buses** states, "With Vallo Transportation's recent acquisition of Shuttle Bus Plus, the company expanded its fleet to include sleek mini coaches which has greatly expanded vehicle options for new and existing clients. Mini coaches are a trendy alternative for use during intimate or upscale private events and corporate functions." Nick matured in this industry beginning his career in the family business as an enthusiastic teen in 2002. He's held many positions through the years, strategically learning the business from the ground up, and today, he's committed to elevating the company and continuing its path toward progression. Whether it's through expansion or developing new business ventures such as Big V Tours, Nick is continually exploring ideas for growth and remains laser focused on their core business. He is currently enrolled in St. John's University pursuing a Bachelors' Degree in Business Administration.

While mini-coaches are an ideal option for smaller groups, clients can continue to inquire about chartering a selection of clean, well-maintained and air-conditioned yellow school buses that can accommodate up to 50 adults or 75 children. "When clients contact any one of our companies for charter service, they can trust that our experienced team will customize a package that will meet or exceed expectations in terms of rates, professionalism and overall quality of service," added Nick.
